

# Rapid fire

- 
- 10 questions – 1 minute
  - Each question – 3 marks
  - No negative marks
  - Questions left out can't be answered after 1 min
  - U can pass to next question but can't answer the question again

# Team A

- Ur time starts now

# Identify spinal needle? Atrucan

# IDENTIFY – Gwathmey expanding airway

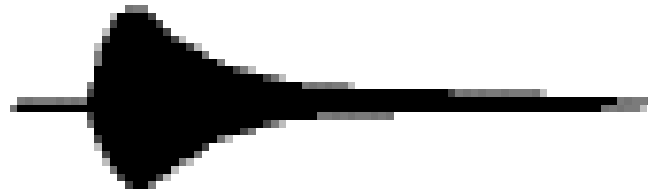

# Identify - SLIPA

# Identify – CHIN UP AIRWAY

# Interpret TEG - FIBRINOLYSIS

- 
- what is the drug Ivabradine ?
  - Reduce HR , inhibition of funny channel

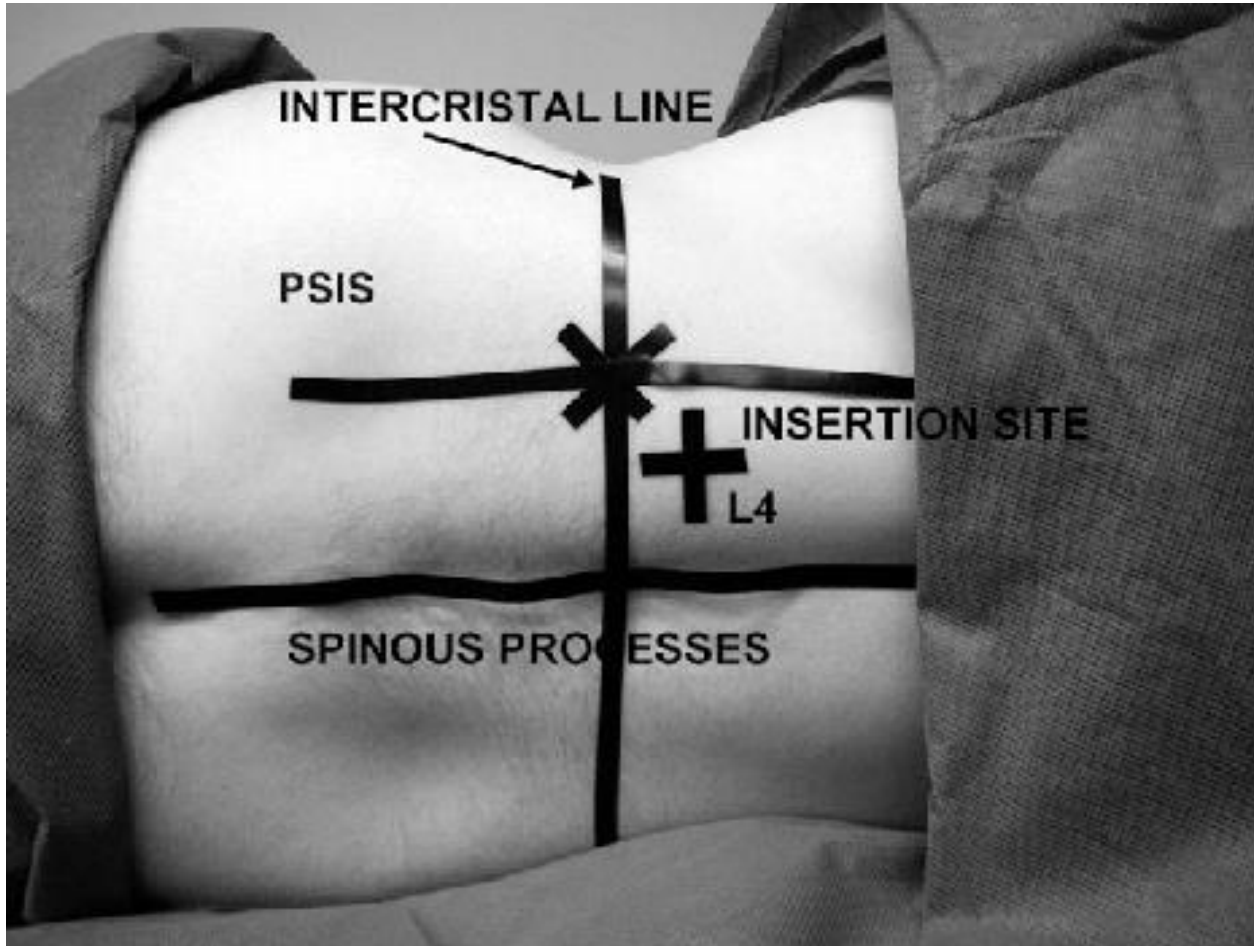

- 
- **Expand FASTHUG**
  - **Feeding, analgesia, sedation, thrombo prophylaxis, head up ,ulcer prophylaxis, glycemic control**

# IDENTIFY – rapid positioning intubation system

- 
- What is SAFE trial about ?
  - Fluid of choice in traumatic brain injury -  
NS

# What Block - psoas compartment block

# Team B

- Ur time starts now

Identify spinal needle? - whitacre

# IDENTIFY – magill laryngoscope

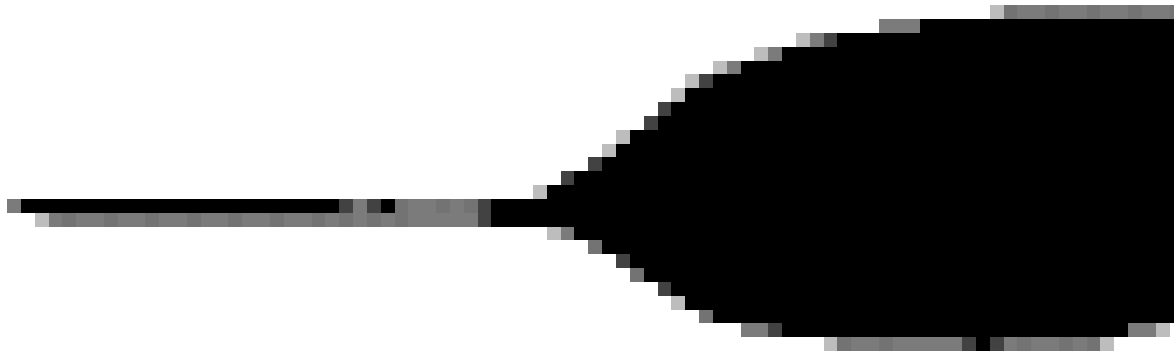

# Identify - COBRA PLA

# Identify - COPA

# Hemophilia / anticoagulation

- 
- what is this drug Aliskiren ?
  - Direct renin inhibitor

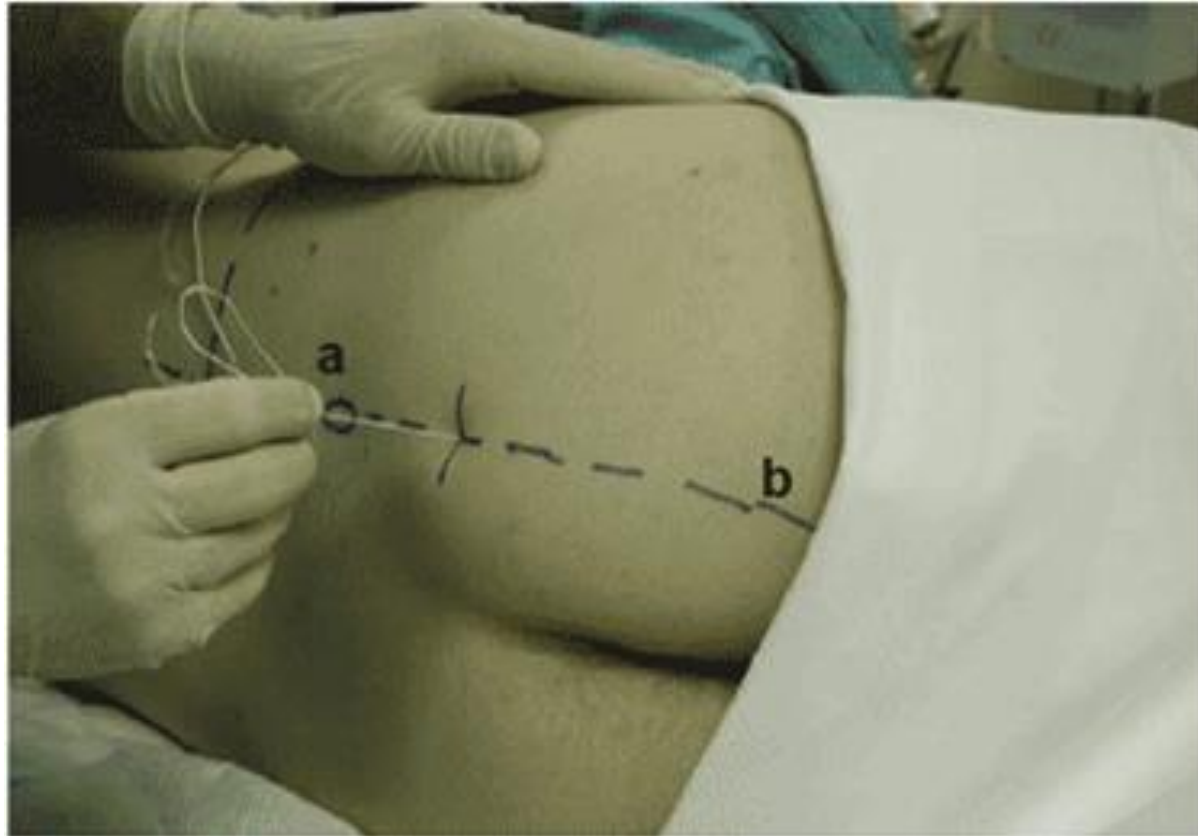

- 
- . Expand ILCOR
  - International liaison of committee for resuscitation

# Leviton

- 
- What is ACCORD trial is concerned with
  - Intensive glycemic control increases mortality in ICU

What technique - parasacral approach of sciatic nerve?

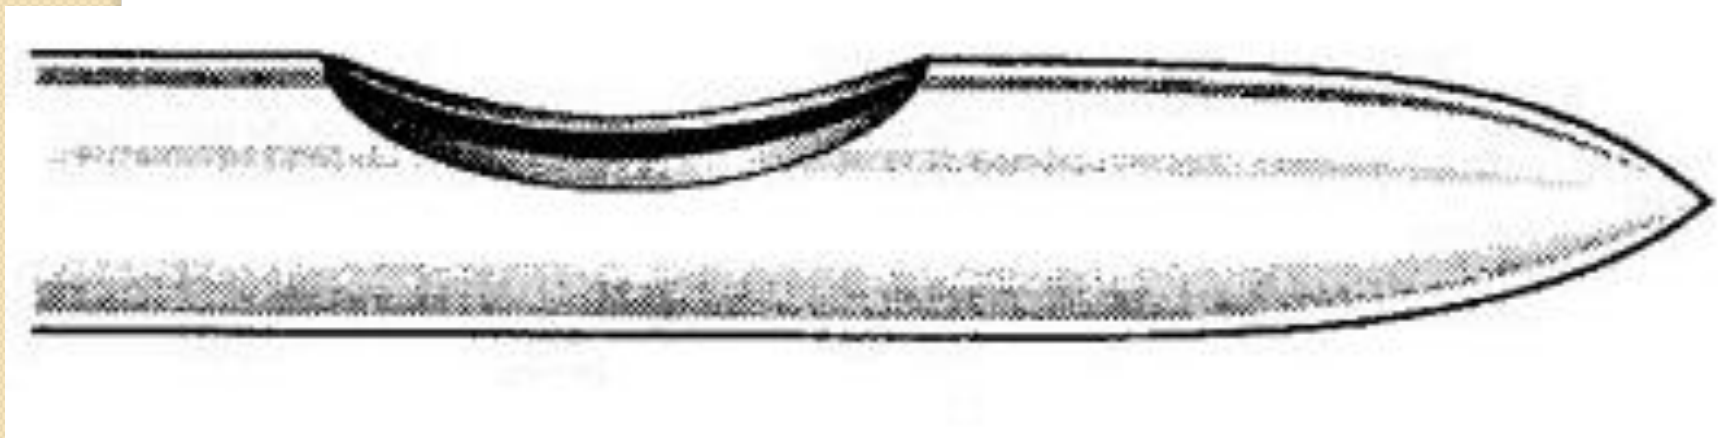

# Team C

- Ur time starts now

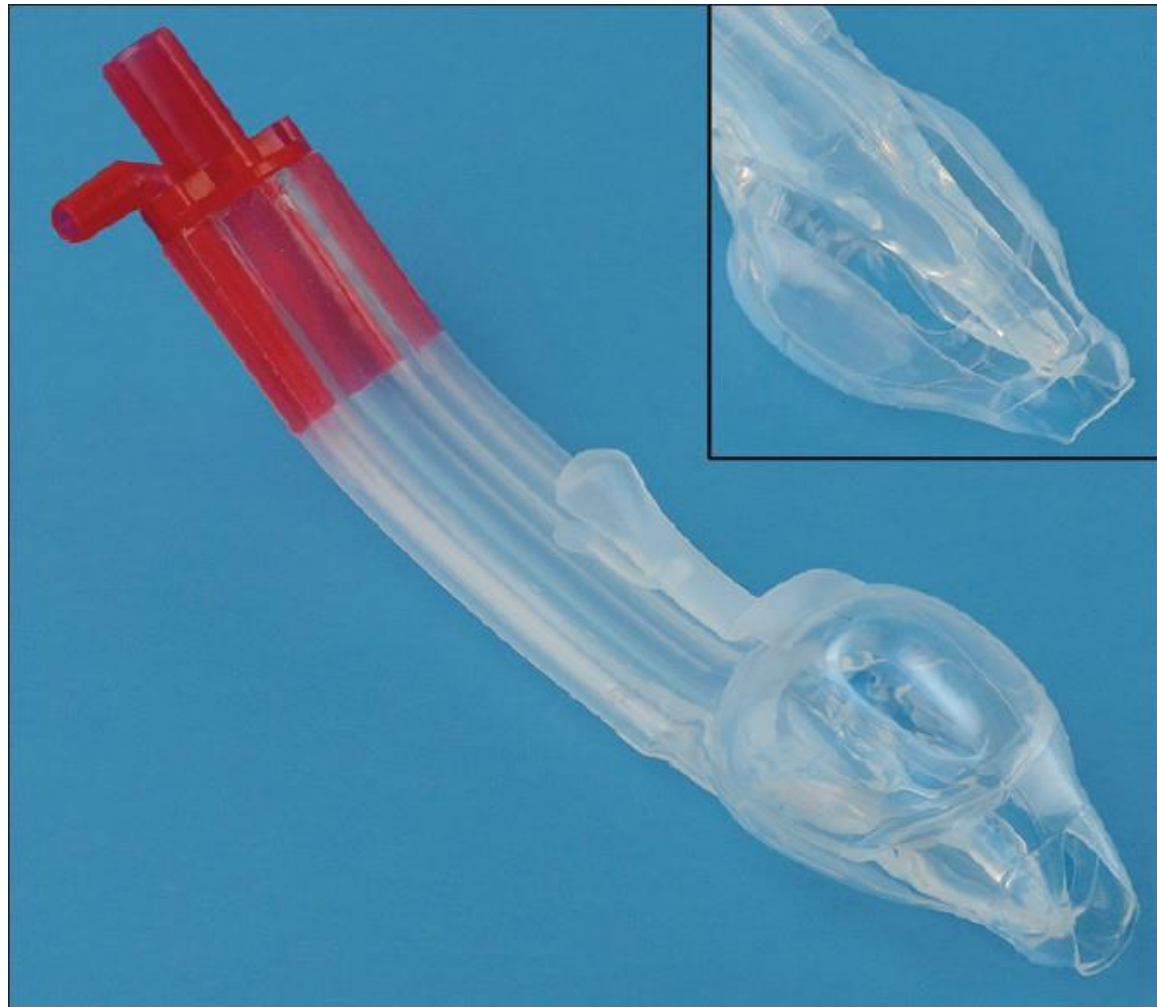

Identify spinal needle - Sprotte?

# IDENTIFY – Co2 Monitor

# Identify – BASKA airway

# IDENTIFY – bermann airway

# TEG PATTERN - antiplatelet / low fibrinogen??

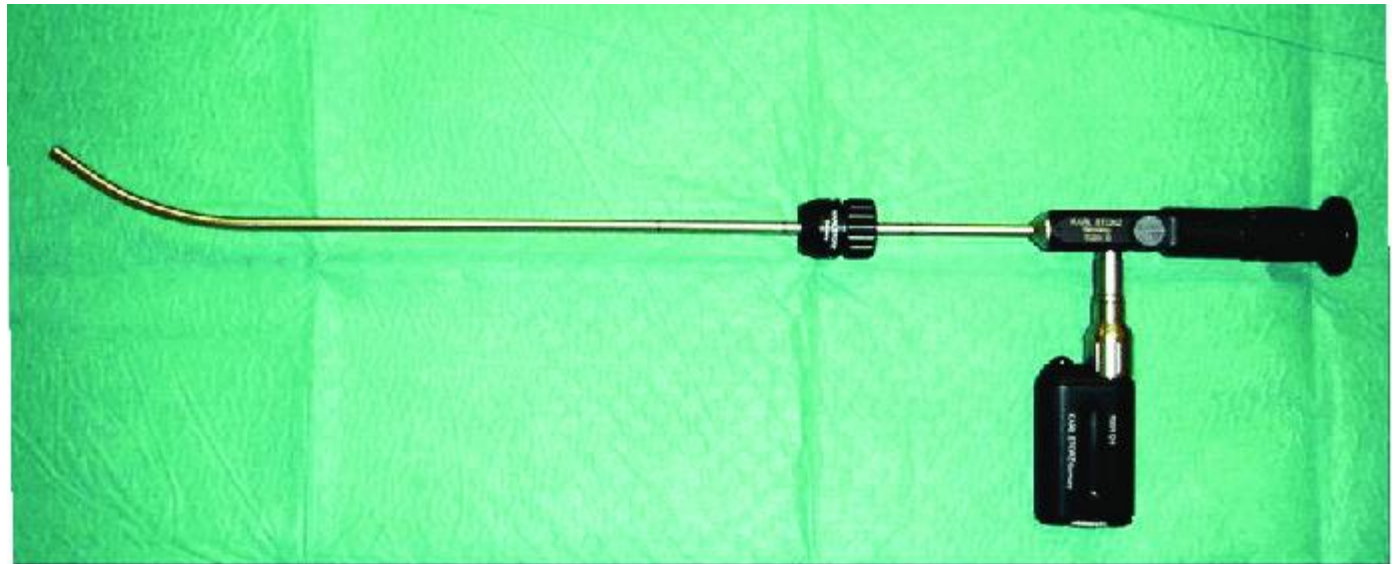

- 
- what is this drug conivaptan ?
  - Non peptide inhibitor of ADH

- 
- **Expand AVPU – Alert, Verbal response, Pain response, unresponsive**

# Bonfill intubation fiberoscope

- 
- What is POISE trial is concerned with ?
  - Perioperative beta blocker on cardiac death and MI

# What Block – Infra clavicular block

# Team D

- Ur time starts now

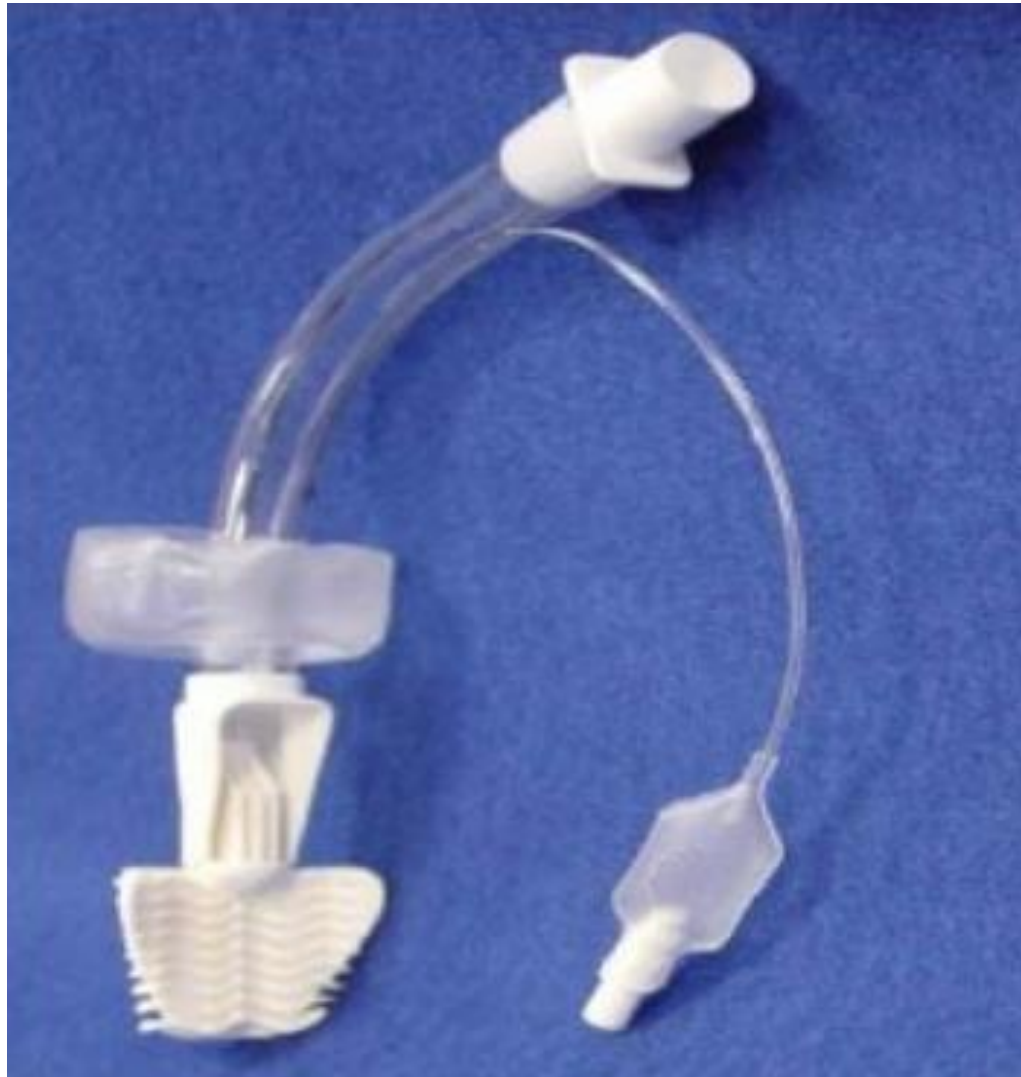

Identify the needle – quincke ?

# IDENTIFY – ECG recording

# Identify – Prelaryngeal airway express

# IDENTIFY – binasal airway

# TEG PATTERN - hypercoagulability

- 
- What is the drug levosimendon ?
  - Calcium sensitiser

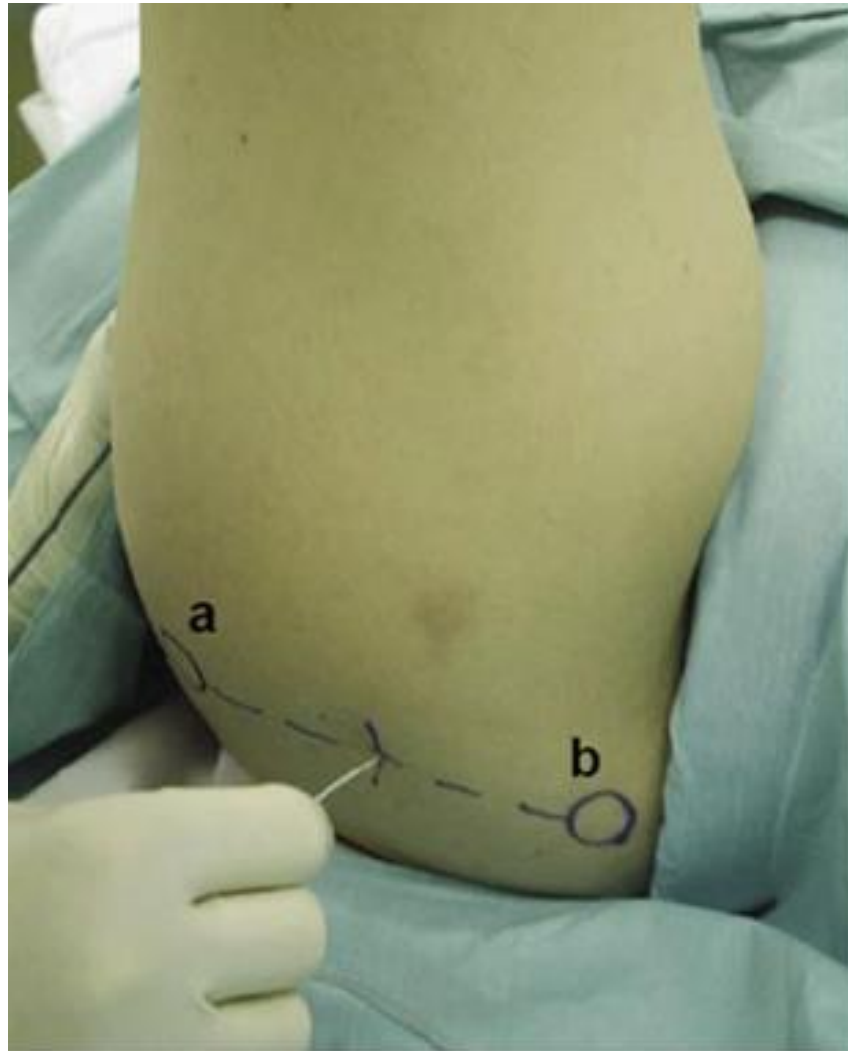

- 
- Expand SAMBA – society of ambulatory anesthesia

# Shikani optical stylet

- 
- what is TRICC trial concerned with
  - Transfusion requirement in critical care

# What Approach – raj approach of sciatic nerve block ?

# Team E

- Ur time starts now

Identify the needle - greene ?

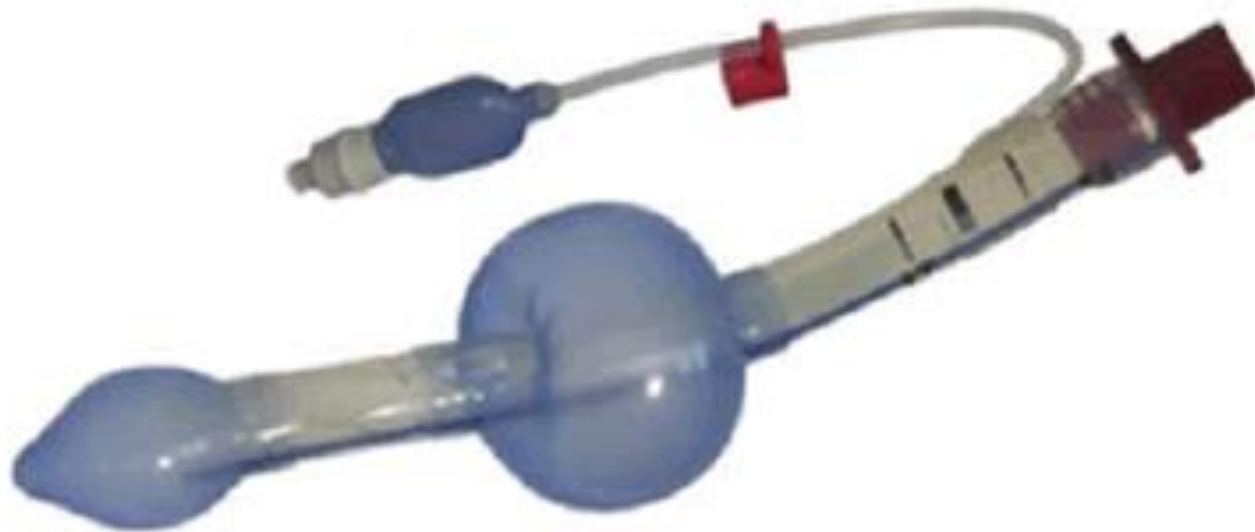

Hadjic - Lances / NISORA

# IDENTIFY – letheon inhaler

# Identify – laryngeal tube

# IDENTIFY – ovosappian airway

# TEG PATTERN - DIC

- 
- Prasugrel is a new \_\_\_\_\_ drug
  - antiplatelet

- 
- **Expand SCOTI**
  - **Sonomatic confirmation of tracheal intubation**

# IDENTIFY – truview scope

- 
- What is ARMA study concerned with ?
  - Low tidal volume for ARDS

# What Block ? – suprascapular nerve block

# Audience – Cat V- gel for Cats

# Mask in veterinary practise
